### INFORMATION FOR MEMBERS REQUESTING RECOGNITION OF CREDIT HOURS

*The Bylaw No. C – 10 Continuing Education (The Bylaw)* allows recognition for a number of activities. A standardized process for members who are requesting credit for continuing education involving self study; presentations; publications, examinations or volunteer positions has become necessary to improve quality and consistency of reporting. This form is for those activities where the member is required to self report or where there are additional documents required to verify the activity.

A member must use this form to report the applicable activities for credit recognition. Please ensure you complete all the relevant sections of the form including checking the continuing education activities that you are requesting credit; your name; your MDA registration number and the declaration and signature. Please print, complete and submit additional forms if there is insufficient space in any particular section.

The following information provides details on conditions established in *The Bylaw* and on completing this form. The Registrar may request additional information to verify participation in an activity.

Members may request recognition of self study programmes with independent assessment for dentally relevant print, electronic, digital or online activities or programmes of more than one hour in duration with an assessment graded by a recognized sponsor. In addition to this completed form, an original copy of their assessment results must be included as the verification document.

Generally, the credit hours identified by the recognized sponsor shall be approved. A member can be recognized for a maximum 18 credit hours in their education cycle for self study with independent assessment.

Recognition for self study programmes without independent assessment may be requested for dentally relevant print, electronic, digital or online activities or programmes. In addition to the completed form, a member must provide a copy of the course materials.

One credit hour for each self study programme shall be approved. A member can be recognized for a maximum of 12 credit hours in an education cycle for self study without independent assessment.

Recognition for self study programmes is limited to a maximum of 18 credit hours in a 3 year cycle

Members that author or coauthor original articles for publication by a local, provincial or national dental assistant association are eligible for credit hour recognition in the education cycle of the year it is published. The maximum number of 3 credit hours will be recognized. A copy of the article must be submitted with this form. A maximum of 9 credit hours in a three year education cycle can be recognized for publications.

Members may request credit hour recognition for writing an entrance examination for dentistry or dental hygiene. Credit hours are awarded for the knowledge gained in preparing to write examinations; not as a reward for writing the exam. Credit hours will be awarded for the following: A maximum of ten credit hours for passing exam. If exam is not passed, credits will be awarded on a 1 credit per 10% basis when the verified mark is provided.

Continuing education credit hours will be awarded for: Holding executive/board/council positions within national, provincial and/or local dental assistant association; volunteering for specific dental charitable organization, dental health promotional programs, and professional dental assistants committees. A maximum of 2 credit hours per year per position held. A maximum of 6 credit hours per year applies regardless of how many or what combination of positions an individual holds.

Please contact the Registrar if you have any questions about the information.
