

The Manitoba Dental Association is pleased to introduce Dr. Jessica Carswell and Dr. Karen Rosolowski as our new Co-Chairs for the General Practice Study Club (GPSC).

With shared enthusiasm to elevate fellow practitioners, their commitment and contributions to the GPSC will help our dental community thrive. Welcome aboard.

## *Dr. Jessica Carswell*

Dr. Jessica Carswell was born and raised in Winnipeg, Manitoba where she completed her undergraduate studies in Sciences and graduated from the University of Manitoba College of Dentistry (2018).

After graduation, Jessica moved out to Brandon to start her career at Princess Dental Centre. Jessica enjoys all aspects of general dentistry with an interest in anterior aesthetics, Invisalign and paediatric treatment plans under nitrous oxide. Currently, she is working towards completing the series of advanced dentistry courses at the Kois Centre in Seattle and looks forward to also learning more from the lecturers at the GPSC events!

Outside of the office, you will find Jessica and her husband, Nathan, staying active in their home gym, chasing their Jack Russel Terrier around, playing hockey, travelling to new cities and spending quality time with friends and family!

## *Dr. Karen Rosolowski*

Dr. Karen Rosolowski is a proud University of Manitoba graduate from the School of Dental Hygiene (2009), Science (2012), and Dentistry (2013).

She has been practicing general dentistry at Shine Dental in St. Boniface since 2014 and loves to give back to her community. She has volunteered her time and skills at the Siloam Mission Dental Clinic, coaching girls hockey, dental outreach trips to Dominican Republic and Mexico and has also participated in the All Dentist Musical fundraiser "Lucky Stiff". Most recently, she is involved with the U of M/MDA mentorship program and the Faculty of Dentistry admissions interview team. She feels fortunate to have had access to great mentors throughout her career and loves the idea of facilitating that for new MDA members.

In her spare time she enjoys traveling, being active outdoors and kiteboarding. She has been a part of GPSC as a participant, facilitator and committee member and is now excited to take on the roll as co-chair with Dr. Carswell, both Bison Women's hockey alumni.
